

Jyotish Workshop

Your AtmaKarka Planet & Dasas Planetary Periods

LIGHTHOUSE CENTER

September 23, 2017 3:00 – 5:00 PM

Cost: \$15

In Jyotish, Sun is the natural indicator for Atman for everyone. Additionally, each person has another planet that represents the Atman and works for your highest good. The first part of the workshop will focus on how to find your AtmaKarka planet and what it means.

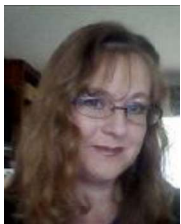

The Lunar Zodiac of Jyotish has 27 Nakshatras. The Nakshatra of your Moon is the basis for your planetary periods in the Vimshottari Dasa System. When a planet runs its dasa, it means its karmas are ripe for fruition. The second part of the workshop explains the dasa system, including the sub-dasas and how to use them to understand specific time periods of your life.
