

Jyotish Workshop

Chakras & the Planets

LIGHTHOUSE CENTER

October 19, 2019

740 East Shore Drive
Whitmore Lake, MI 48189

3:00 – 5:00
Cost: \$15

The Vedic sister sciences of Jyotish, Ayurveda and Yoga see energetic relationship between the planets and chakras. Dasas (planetary periods) and transits (current planetary positions) activate our individual birth chart and reveal an energetic resonance to what is happening in our life, body and mind. Chakra work is one of the more powerful remedial measures in Jyotish for difficult transits or periods.

In this hands-on workshop, everyone will work with their chakras based on their current astrology. **Be sure to RSVP with Julene to have your chart & dasas brought to class.**

We will work with the bija mantras (seed sounds) and singing bowls attuned for resonance with each chakra to remove blockages and promote healing and empowerment through sacred sound. Julene will bring 7 small singing bowls for each of the 7 major chakras and a few pendulums. If you have your own, feel free to bring them to the class.
